

I support media diversity

I am involved with musicians in Pittsburgh. As a DJ at Carnegie Mellon University's WRCT, I see firsthand how difficult it is for local musicians and community leaders to get their art and message heard by people locally due to the growing consolidation of local media outlets. Please consider my voice and my experience when you proceed with the regulatory review and know that by preserving the current ownership limitations, you will be preserving the voice of talented Americans everywhere.

Yours truly,
Matthew Hornyak
